

Material Certification of Compliance

All B&B Manufacturing parts are RoHS compliant (RoHS 2 2011/65/EU and RoHS 3 2015/863) with the exception of aluminum parts that have gold anodize and a few non-catalog parts that have customer specified non-compliant plating requirements. If you are purchasing aluminum parts with gold anodize and need RoHS compliance, please notify us before placing your order.

Part Number:	F144-14M55-F
Management Contact:	Sales Manager
Main RoHS Contact:	Quality Control Manager
RoHS Status:	Compliant, with the exception of parts with gold anodize and customer specified parts that require non-compliant plating.
Part Compliance Date:	Inception
Plan to Trace Compliance:	Labeled batch code
Plan to Prove Compliance:	Material Certification upon Request

General Comments:

- Part number specific auto generated certificates are provided free of charge via our website. If additional specific certification is needed, it will be provided for a fee. Parts will only be certified under B&B part numbers.
- Material certification for previously shipped items may not be available.
- Raw material and subsequent processes do not exceed RoHS directed limits for restricted materials:
 - .35% Lead (steel) (exemption 6 – lead as an alloying element)
 - .4% Lead (aluminum) (exemption 6 – lead as an alloying element)
 - .1% mercury
 - .1% hexavalent chromium
 - .1% Flame Retardants (PBB & PBDE)
 - .01% Cadmium
 - .1% phthalates (DEHP, BBP, DBP, DIBP)
- B&B validates its suppliers for RoHS compliance annually.

This certification is effective from January 1, 2021 through December 31, 2021.
