

BH Explosion-Proof/Flameproof Field-Mount Enclosure with Solid Cover for Hockey-Puck Instruments

Model: **BH Enclosure with Solid Cover**

The BH housing provides superior explosion-proof/flameproof protection for field-mounted units and meets standards for enclosing indoor and outdoor electronic instruments approved for use in explosion-proof/flameproof, dust-ignition proof and intrinsically-safe locations. Meeting NEMA 4X and IP66 ratings, the BH housing is resistant to ultraviolet rays and chemicals. Its high-impact structure protects instruments even in harsh field conditions. This housing includes two metric or NPT conduit side entry ports, with an optional third bottom port, and a solid cover.

Product Details

Housing/Enclosure Approval/Rating	Explosion-proof/Flameproof
Housing/Enclosure Type	For hockey puck instruments
Housing/Enclosure Cover Type	Solid cover
RoHS Compliant	Yes
