

## IPT2 Current-to-Pressure (I/P) Transmitter

Model: **IPT2/4-20mA/3-15PSIG/20PSI/-FA1 [DIN]**

The high-performance IPT2 Current-to-Pressure (I/P) Transmitter converts a current signal to a pneumatic signal so that an electronic-based system such as a DCS, PLC, or PC can control a pneumatic actuator, valve, or damper drive.

### Product Details

|                                    |                                                                    |
|------------------------------------|--------------------------------------------------------------------|
| Input                              | 4-20mA                                                             |
| Output                             | 3-15PSIG                                                           |
| Power                              | 20PSI                                                              |
| Options                            | -FA1                                                               |
| Input Description                  | 4-20mA                                                             |
| Output Description                 | 3-15PSIG                                                           |
| Supply Pressure/Loop Power         | 20PSI                                                              |
| Options Description                | Front electrical conn., bottom pneumatic location                  |
| Housing Description                | Universal DIN-style housing mounts on G-type and Top Hat DIN-rails |
| Installation Type                  | DIN Rail or Rack Mount                                             |
| Supply and Output Medium           | Air                                                                |
| Input                              | 4-20mA                                                             |
| Output                             | 3-15PSIG                                                           |
| Housing/Enclosure                  | DIN Rail Enclosure                                                 |
| Supply Filter/Regulator (I/P)      | No                                                                 |
| Output Gauge (I/P)                 | No                                                                 |
| Field Enclosure Conduit Connection | Standard (NPT)                                                     |
| 2" Pipe Mount Bracket              | No                                                                 |
| Hazardous Area Certifications      | Non-Incendive/Div. 2, Zone 2                                       |
| RoHS Compliant                     | Yes                                                                |
