

## SB Stainless Steel Explosion-Proof/Flameproof Field-Mount Enclosure with Glass Cover for Hockey-Puck Instruments

Model: **SB Enclosure with Glass Cover**

The SB field mount enclosure is a stainless steel explosion-proof/flameproof field-mount enclosure for hockey-puck instruments. The non-corrosive stainless steel 316, electropolished and passivated material meets NEMA 4X and IP66 ratings and is designed for highly corrosive environments such as offshore platforms and chemical facilities. The SB housing has two metric or NPT conduit side entry ports and a glass cover making it ideal for use with hockey-puck instruments with integral display.

### Product Details

Housing/Enclosure Approval/Rating	Explosion-proof/Flameproof
Housing/Enclosure Type	For hockey puck instruments
Housing/Enclosure Cover Type	Glass/Clear Cover
RoHS Compliant	Yes
