

## SB Stainless Steel Explosion-Proof/Flameproof Field-Mount Enclosure with Solid Cover for Hockey-Puck Instruments

Model: **SB Enclosure with Solid Cover**

The SB field mount enclosure is a stainless steel explosion-proof/flameproof field-mount enclosure for hockey-puck instruments. The non-corrosive stainless steel 316, electropolished and passivated material meets NEMA 4X and IP66 ratings and is designed for highly corrosive environments such as offshore platforms and chemical facilities. The SB housing has two metric or NPT conduit side entry ports and a solid cover.

### Product Details

Housing/Enclosure Approval/Rating	Explosion-proof/Flameproof
Housing/Enclosure Type	For hockey puck instruments
Housing/Enclosure Cover Type	Solid cover
RoHS Compliant	Yes
